Center for the Environment

CONFRONTING CLIMATE CHANGE: DIVERSE PERSPECTIVES ON THE PATH FORWARD

Panelists pictured above from top left to right: Rebecca Henderson, Jennifer Leaning, Peter Huybers, James H. Stock, and Daniel Schrag (moderator).

Climate change is modifying weather patterns, raising sea levels, disrupting ecosystems, and threatening human health. To reduce the impacts of climate change and to manage the impacts that are unavoidable, profound changes in the world's energy systems are required. These changes will affect nearly every aspect of our daily life. From the different perspectives of science, policy, health and business, the panelists will share their perspectives on the way forward.

JOIN US LIVE ON THURSDAY, MARCH 25 FROM 7-8:00PM

REGISTRATION CLOSING AT 5PM ON THURSDAY, MARCH 25
